July 24, 2022

To the members of the Fairlawn Amateur Radio Club,

Personally, and on behalf of the West Palm Beach Amateur Radio Group, we are excited about this venture and partnering with the FLARC. We look forward to sharing information, ideas, and best practices that can help strengthen and grow both our organizations.

We want to extend a warm and open invitation to each and every one of you, our brothers and sisters in amateur radio, to visit us any time you happen to be in South Florida, and to know that you are encouraged to participate in any activities we may have at that time, or just stop by to say hello and join us in a monthly meeting.

As amateur radio operators, each of us has a responsibility to the hobby and our community, and to be good ambassadors of both. We see this venture as a wonderful way to leverage that and to grow this unique fellowship of amateur radio. As this is uncharted territory for our organization, we welcome input on how better to reach these goals.

Personally, I would like to thank Ed Efchak for advancing this idea. Whatever fruit this may or may not bear, we are grateful for the opportunity.

One final note - While we are all working towards these mutual goals, if we aren't having fun doing it, we're not doing it right... and having fun is what I am most looking forward to!

73,

On behalf of the WPBARG Board of Directors,
Michael Mathias (K1WX)
Secretary, WPBARG
